2DRY

ENDURING FRESHNESS

- **FASTER DRYING**
- **HIGH EVAPORATION AND COOL-DOWN EFFECT**
- **EXCELLENT SOFT-HANDLE**
- **EASY CARE**

T E C H N O L O G Y

2DRY Technology is a **hydrophilic treatment** which improves the **moisture management performance of textiles**.

The treatment is based on the principles of absorbing and diffusing moisture to enhance a quick evaporation.

The hydrophilic effect removes perspiration from the skin through capillary effect, leaving the textile on the skin drier and the body with a pleasant sensation of freshness.

The featured **soft hand** contributes to the **overall comfort** of the treated textile.

The treatment retains its initial characteristics through multiple domestic washes at 40°C.

The technology is applicable to many sportswear and athleisure fabrics.

2DRY TECHNOLOGY CAN BE APPLIED TO THE FABRICS OF OUR PRODUCTS:

BLIZZARD
THERMAL COMFORT

COSMOPOLITAN
FASHION-TECH

THUNDERBIKE
POWER
STRETCH & SHIELD

SPORTAGE
WHITE OPACITY
