# ECLIPSE

**SUN PROTECTION**

- **UV PROTECTION**
- **NO-SEE-THROUGH EFFECT**
- **COOL FEELING**

T E C H N O L O G Y

ECLIPSE is a technology which aims at providing fabrics with **excellent no-see-through effect** and **maximum UV protection** (UPF50+) through the use of best textile construction and yarns, even when the fabric is white, while ensuring an excellent fit and breathability for utmost comfort.

This technology is optimal for sportswear fabrics, particularly suitable for cycling, running and triathlon, as well as for athleisure garments.

With ECLIPSE, athletes are protected against sun exposure which might occur during long outdoor training.

## ECLIPSE TECHNOLOGY CAN BE APPLIED TO THE FABRICS OF OUR PRODUCTS:

**THUNDERBIKE  
POWER**  
STRETCH & SHIELD

**SPORTAGE**  
WHITE OPACITY

**BLIZZARD**  
THERMAL COMFORT

**COSMOPOLITAN**  
FASHION-TECH
